Subject: Neonic Bee Label Language
Date: Sunday, July 21, 2013 5:47:51 PM

I will be working episodic flexiplace tomorrow since I have a conference call from 4 - 9 am. I am also on jury duty this week; however, there is no jury on Monday in Charles County.

If there is an opportunity tomorrow, it would be helpful if we could have a brief meeting on our continuing effort to come up with label language for the neonics. Do we have a sense for whether the existing label language across products has any areas of commonality that we may be able to capture/tap?

I will be monitoring my email tomorrow in case you want to set something up in Outlook.

Tom
